

Owen Alvarez,

Vice President State Building Programs

SchoolWorks, Inc.

School Facilities Program Funding Specialist

Mr. Alvarez has been the School Facilities Program Funding Specialist for over 16 years in the field of mechanical engineering, energy analysis and information technology. He is responsible for the School Facilities Program (SFP) project submittals to OPSC and CDE, financial hardship applications and emergency repair program applications. His major focus is the utilization of the State Building Program and has assisted many California school districts in applying for the maximum eligible State funding for new construction and modernization projects. Mr. Alvarez has recently brought his knowledge of the State Building Program and his experience in designing energy efficient mechanical systems for schools to head up the SchoolWorks team to conduct energy planning systems under Proposition 39. He provides a valuable resource to School Districts seeking state funding for construction and modernization projects.

RESPONSIBILITIES

- Primary point of contact for SchoolWorks, Inc.
- Manages tasks and scheduling for all projects
